

Revolutionizing Data Processing for National Office & Industrial Properties Group

Streamlining operations with AI-Powered Intelligent Automation

INDUSTRY:

Real Estate & Property Management

LOCATION:

USA

SOLUTION:

AI-Powered Intelligent Automation

CHALLENGE

Manual data extraction was consuming significant resources, creating a backlog and increasing the risk of errors. The inefficiencies were impacting overall productivity and morale.

- Manual data extraction across 6,000 pages
- 46-day backlog causing operational delays
- 6 full-time employees dedicated to manual processing
- 5–10 minutes of processing per page
- High error risk and reduced efficiency
- Low employee morale due to repetitive tasks

IMPACT TO THE BUSINESS

- Employees spent hours navigating hundreds of county web pages
- Key personnel were tied up with low-value, repetitive tasks
- Data accuracy was compromised due to manual processing errors
- Strategic initiatives faced delays due to inefficient resource allocation

WHO WE HELPED

National Office & Industrial Properties Group specializes in high-value commercial property transactions, with a strong reputation in acquisitions, leasing, and financial analysis. Their expansive portfolio required fast, accurate data processing—an increasingly difficult task due to reliance on manual processes.

SOLUTION

Valenta implemented an AI-Powered Intelligent Automation solution with these key components:

Advanced Document Processing

Automated data extraction across 28 document types with structured data

Intelligent Web Navigation

Integration with hundreds of county portals, ensuring seamless data retrieval

This created a **significant reduction in manual intervention**, allowing employees to focus on strategic work.

RESULTS

Boost in Employee Morale & Productivity

1. Freed up 6 full-time employees from repetitive tasks
2. Enabled staff to focus on higher-value, strategic work
3. Reduced human error and improved data quality

Massive Time Savings for the Company

1. Processing time reduced from ~7.5 min/page → 5 seconds/page
2. 90%+ reduction in manual data entry
3. Only 10% of staff still involved for human validation

RETURN ON INVESTMENT

742

Hours Saved
(Equal to 93 work days)

\$29,668

Saved In Labor Costs
(Assuming \$40/hour)

Client Testimonial

I had the pleasure of working with a Valenta Managing Partner, and I couldn't be more satisfied with the results. From the very beginning, my Managing Partner's professionalism, product knowledge, and attention to detail were exceptional. She took the time to understand my needs and goals, providing strategic insights that led to a highly successful solution. Throughout the process, she was responsive, transparent, and always kept me informed, making the entire experience smooth and efficient. I highly recommend Valenta's Intelligent Automation to anyone seeking an AI software solution.
